- The initial placement of a full denture or partial denture unless it includes the replacement of a functioning natural tooth extracted while the person is covered under this plan (the removal of only a permanent third molar will not qualify a full or partial denture for benefit under this provision).
- The initial placement of a fixed bridge, unless it includes the replacement of a functioning natural tooth extracted while the person is covered under this plan. If a bridge replaces teeth that were missing prior to the date the person's coverage became effective and also teeth that are extracted after the person's effective date, benefits are payable only for the pontics replacing those teeth which are extracted while the person was insured under this plan. The removal of only a permanent third molar will not qualify a fixed bridge for benefit under this provision.

- Core build-ups.
- Replacement of a partial denture, full denture, or fixed bridge or the addition of teeth to a partial denture unless:
  - Replacement occurs at least 84 consecutive months after the initial date of insertion of the current full or partial denture; or
  - The partial denture is less than 84 consecutive months old, and the replacement is needed due to a necessary extraction of an additional functioning natural tooth while the person is covered under this plan (alternate benefits of adding a tooth to an existing appliance may be applied); or
  - Replacement occurs at least 84 consecutive months after the initial date of insertion of an existing fixed bridge (if the prior bridge is less than 84 consecutive months old, and replacement is needed due to an additional necessary extraction of a functioning natural tooth while the person is covered under this plan. Benefits will be considered only for the pontic replacing the additionally extracted tooth).
- The removal of only a permanent third molar will not qualify an initial or replacement partial denture, full denture or fixed bridge for benefits.
- The replacement of crowns, cast restoration, inlay, onlay or other laboratory prepared restorations within 84 consecutive months of the date of insertion.
- The replacement of a bridge, crown, cast restoration, inlay, onlay or other laboratory prepared restoration regardless of age unless necessitated by major decay or fracture of the underlying natural tooth.
